

Contents

Design of Experiments for Evaluating Frozen Sperm	James L. Rosenberger	89
Sialylglycoconjugates Release During <i>In Vitro</i> Capacitation of Human Spermatozoa	Riccardo Focarelli, Floriana Rosati, Benedetto Terrana	97
Experimental Cryptorchidism Protects Against Long-Term 2, 5-Hexanedione-Induced Testicular Germ Cell Loss in the Rat	Kim Boekelheide, Julia Eveleth, Susan J. Hall	105
Onset of Spermatozoal Degeneration in Low-Fertility Delaware Roosters and Test for Autoimmune Basis	David P. Froman, John D. Kirby, Rita M. Lawler, Paul E. Bernier	113
Preparation and Short-Term Culture of Enriched Populations of Guinea Pig Spermatocytes and Spermatids	Madhu S. Joshi, Onyeama O. Anakwe, George L. Gerton	120
Initial Characterization of Factors From Testicular Fluid Which Alter <i>In Vitro</i> Androgen Secretion by Normal Rat Leydig Cells	Gwenderlyn F. Jansz, Robert A. Cook, David K. Pomerantz	131
Proteins in Luminal Fluid of the Ram Excurrent Ducts: Changes in Composition and Evidence for Differential Endocytosis	D. N. Rao Veeramachaneni, Rupert P. Amann, Jennifer S. Palmer, Barry T. Hinton	140
Leydig Cell Cytoplasmic Content Is Related to Daily Sperm Production in Men	L. Johnson, J. S. Grumbles, S. Chastain, H. F. Goss, Jr., C. S. Petty	155
Metabolism of 5 α Reduced Androgens by Various Tissues of the Male Rat	Vijaya Pasupuleti, Richard Horton	161
Characterization of Sulfhydryl Proteins Involved in the Maintenance of Flagellar Straightness in Hamster Spermatozoa	Gail A. Cornwall, T. S. K. Chang	168
Characterization of New Superfusion, Two-Compartment Culture System for Sertoli Cells: Influence of Extracellular Matrix on the Cell Permeability and Dynamics of Transferrin Secretion	F. Guillou	182

Announcements

Future ASA Meetings	96	ASA Placement Service	112
Postdoctoral Position	104
