

CONTENTS

Polyamines in Ejaculated Ram Spermatozoa and Their Relationship with Sperm Motility / C. S. Melendrez, J. L. Ruttle, D. M. Hallford, P. S. Chaudhry, E. R. Casillas	293
A Long-term, Prospective Study of the Physiologic and Behavioral Effects of Hormone Replacement in Untreated Hypogonadal Men / A. S. Burris, S. M. Banks, C. S. Carter, J. M. Davidson, R. J. Sherins	297
Adenosine Triphosphate (ATP) Concentrations and ATP/Adenosine Diphosphate Ratios in Human Sperm of Normospermic, Oligospermic, and Asthenospermic Specimens and in their Swim-up Fractions: Lack of Correlation Between ATP Parameters and Sperm Creatine Kinase Concentrations / C. Vigue, L. Vigue, G. Huszar	305
Oligotriche and Quaking Gene Mutations: Phenotypic Effects on Mouse Spermatogenesis and Testicular Steroidogenesis / C. Chubb	312
Developmental Expression of Multiple Forms of 3-Hydroxy-3-Methylglutaryl Coenzyme A Reductase mRNA in Rat Testes / G. C. Ness, S. J. Nazian	318
Hyperactivated Motility is Coupled with Interdependent Modifications at Axonemal and Cytosolic Levels in Human Spermatozoa / C. Murad, E. De Lamirande, C. Gagnon	323
Changes in the Hypothalamic–Pituitary–Gonadal Axis in Men After Cadaver Kidney Transplantation and Cyclosporine Therapy / E. Samojlik, M. A. Kirschner, S. Ribot, E. Szmaj	332
Diffuse Lymphoid Tissue Associated with the Human Bulbourethral Gland: An Immunohistologic Characterization / R. Migliari, A. Riva, M. Serenella Lantini, M. Melis, E. Usai	337
Thiol-Disulfide Status and Acridine Orange Fluorescence of Mammalian Sperm Nuclei / N. S. Kosower, H. Katayose, R. Yanagimachi	342
