

JOURNAL OF ANDROLOGY

Volume 15

MARCH/APRIL 1994

Number 2

CONTENTS

Effects of Estrogens on the Prostate / J. A. Thomas, Edward J. Keenan	97
Atrial Natriuretic Factor Inhibits the Phosphorylation of Protein Kinase C in Plasma Membrane Preparations of Cultured Leydig Tumor Cells / K. N. Pandey	100
Sertoli Cell Secretion of a Factor that Inhibits the Incorporation of ³H-Thymidine into Cells <i>In Vitro</i> / D. L. Lamb, S. Lee, S. Shubhada	110
Sertoli Cell-Conditioned Medium Affects Nucleoside Utilization <i>In Vitro</i> / D. J. Lamb, S. Shubhada, K. Baker, S. K. Lee	117
Effects of Castration and Recombinant Human Inhibin Administration on Circulating Levels of Inhibin and Gonadotropins in Adult Male Monkeys / R. B. Christensen, R. G. Forage, R. A. Steiner, W. J. Bremner	125
Can Spermatogenesis Be Maintained Quantitatively in Intact Adult Rats with Exogenously Administered Dihydrotestosterone? / H. Chen, V. Chandrashekar, B. R. Zirkin	132
DNA Organization in Human Spermatozoa / J. G. Barone, J. De Lara, K. B. Cummings, W. S. Ward	139
The Detrimental Effects of Electric Current on Normal Human Sperm / S. C. Sikka, R. Wang, E. Kukuy, C. F. Walker, W. J. G. Hellstrom	145
Spermagglutination by Bacteria: Receptor-Specific Interactions / M. Monga, J. A. Roberts	151
Stimulation of Cryopreserved Epididymal Spermatozoa of the Domestic Cat Using the Motility Stimulants Caffeine, Pentoxifylline, and 2'-Deoxyadenosine / J. J. Stachecki, K. A. Ginsberg, D. R. Armant	157
Zona Pellucida Piercing Enhances Zona Penetration by Spermatozoa from Normospermic and Teratospermic Domestic Cats / T. L. Roth, J. Howard, D. E. Wildt	165
Involvement of Vasoactive Intestinal Peptide (VIP) as a Humoral Mediator of Penile Erection Function in the Dog / H. Aoki, J. Matsuzaka, K.-H. Yeh, F. Sato, T. Fujioka, T. Kubo, T. Ohhori, N. Yasuda	174
Announcements	
Seventh International Symposium on Spermatology	109
Second Annual Andrology Symposium and Annual Meeting of German Society for Andrology . .	131
27th Annual Meeting of Society for the Study of Reproduction	138
Contraceptive Research and Development Program	144

American Society of Andrology

Placement Service **99**

20th Annual Meeting **150**

Cover: *Centromeres visualized by fluorescent in situ hybridization in an extracted human sperm nucleus. The DNA extends out from the nucleus as a fluorescent halo (not seen), and the centromeres appear as individual, linear beaded signals within that halo (see article by Barone et al.)*
