

JOURNAL OF ANDROLOGY

Volume 15

SEPTEMBER/OCTOBER 1994

Number 5

CONTENTS

	MINIREVIEW: The Testicular Iron Shuttle: A "Nurse" Function of the Sertoli Cells / S. R. Sylvester, M. D. Griswold	381
✓	Follicle-Stimulating Hormone (FSH) Escape During Chronic Gonadotropin-Releasing Hormone (GnRH) Agonist and Testosterone Treatment / S. Bhasin, N. Berman, R. S. Swerdloff	386
	The Effect of Vasoactive Intestinal Polypeptide (VIP) on Rabbit Cavernal Smooth Muscle Contractility / Y. C. Kim, H. K. Choi, Y. S. Ahn, K. H. Kim, P.-O. Hagen, C. C. Carson, III	392
	Growth Factors (EGF, IGF-I) Modulate the Morphological Differentiation of Adult Marmoset (<i>Callithrix jacchus</i>) Sertoli Cells <i>In Vitro</i> / D. Pretzer, J. A. Ghaida, G. M. Rune	398
	Immunoreactive Parathyroid Hormone-Related Protein Is Present in Human Seminal Plasma and Is of Prostate Origin / M. Iwamura, P.-A. Abrahamsson, S. Schoen, A. T. K. Cockett, L. J. Deftos	410
	Immunocytochemical Localization of Glutathione S-Transferase Yo Subunit in the Rat Testis and Epididymis / J. P. Veri, L. Hermo, B. Robaire	415
✓	A New Approach to Study the Architectural Arrangement of Spermatogenic Stages Revealed Little Evidence of a Partial Wave Along the Length of Human Seminiferous Tubules / L. Johnson	435
	Alterations of Testicular Function After Induced Autoimmune Orchitis in Rats / M. O. Suescun, R. S. Calandra, L. Lustig	442
✓	Changes in the Endocrinological Milieu After Clomiphene Citrate Treatment for Oligozoospermia: The Clinical Significance of the Estradiol/Testosterone Ratio as a Prognostic Value / N. Itoh, T. Tsukamoto, A. Nanbu, H. Tachiki, T. Nitta, K. Akagashi, H. Maruta, Y. Kumamoto	449
	<i>In Vivo</i> Model for Chronic Direct Intratesticular Drug Administration / J. P. Jarow, D. S. Keeney, B. Robaire, L. L. Ewing, B. R. Zirkin	456
	Nanovid Microscopy for Assessing Sperm Membrane Changes Induced by <i>In Vitro</i> Capacitating and Acrosomal Reacting Procedures / S. D. Degelos, M. P. Wilson, J. E. Chandler	462
	Effect of Bovine Oviductal Estrus-Associated Protein on the Ability of Sperm to Capacitate and Fertilize Oocytes / R. S. King, S. H. Anderson, G. J. Killian	468

A New Method to Generate Canine Seminal Emission and Its Application to Men: Direct Electrical Stimulation of the Vas Deferens / K. Kihara, K. Sato, M. Ando, T. Ushiyama, H. Azuma, H. Oshima	479
Phosphatidylcholine Enhances the Acrosomal Responsiveness of Human Sperm / N. L. Cross	484
Post-Thaw Bovine Spermatozoal Quality Estimated from Fresh Samples / C. A. Thomas, D. L. Garner	489

Announcements

American Society of Andrology

Joint Workshop of British Andrology Society and American Society of Andrology	391	20th Annual Meeting	385
Testis Workshop	434	ASA Sponsors.....	397
Andrology Meetings	502	Program for 1995 ASA Annual Meeting	501
		Andrology User's Group	504

Cover: *Movement of iron through the testis. The iron atoms (magenta) are shown to be transported to the testis and from the Sertoli cell to germ cells via transferrin (green) via transferrin receptors (orange) (see article by Sylvester and Griswold).*
