

# Journal of Andrology

VOLUME 6 NUMBER 6  
NOVEMBER/DECEMBER 1985

## CONTENTS

- Flow Cytometric DNA Analysis of Defined Stages of Rat  
Seminiferous Epithelial Cycle During *In Vitro* Differentiation 325  
Jorma Toppari, Erkki Eerola, and Martti Parvinen
- In Vitro* Differentiation of Rat Seminiferous Tubular Segments from Defined  
Stages of the Epithelial Cycle: Morphologic and Immunolocalization Analysis 334  
Jorma Toppari and Martti Parvinen
- Inhibition of LDH-X by Gossypol Optical Isomers 344  
In Chull Kim, Donald P. Waller, and Harry H. S. Fong
- Differential Release of Polyamines by Cultured Rat Sertoli Cells 348  
Yu-Hui Tsai and Shen-Nan Lin
- ↔ Androgens in Various Fluid Compartments of the Rat Testis and Epididymis  
after Hypophysectomy and Gonadotropin Supplementation 353  
T. T. Turner, L. L. Ewing, C. E. Jones, S. S. Howards, and B. Zegeye
- ↔ Epididymal Fluid Macromolecules Do Not Act As Auto- or Alloantigens 359  
P. Esponda and J. M. Bedford
- Whole Cell and Nuclear Androgen Uptake in  
Skin Fibroblasts from Infertile Men 365  
Charles Eil, George T. Gamblin, John W. Hodge, Richard V. Clark, and Richard J. Sherins
- Identification and Distribution of Pz-peptidases A and B in Human Semen 372  
Bruce A. Lessley and Duane L. Garner
- In Vitro* Production of a TRH-Homologous Peptide  
and His-Pro Diketopiperazine by Human Semen 379  
A. Eugene Pekary, Joseph R. Reeve, Vierka P. Smith, Stanley Friedman, and Jerome M. Hershman
- The Effect of  $\Delta^9$ -tetrahydrocannabinol *In Utero* Exposure on  
Rat Offspring Fertility and Ventral Prostate Gland Morphology 386  
Balwant S. Ahluwalia, Shakuntala U. Rajguru, and George H. Nolan
- RAPID COMMUNICATION  
Identification of Complementary DNA Clones That Encode  
Rat Androgen Binding Protein 392  
David R. Joseph, Susan H. Hall, Frank S. French
- Index to Volume 6 396
- Announcements 333, 364, 378, 385, inside back cover
