CONTENTS

Repair of Experimental Varicoceles in the Rat: Long-term Effects on Testicular Blood Flow and Temperature and Cauda Epididymidal Sperm Concentration and Motility	G. Samuel Hurt, Stuart S. Howards, and Terry T. Turner	271
Effects of Diazacholesterol Dihydrochloride (SC-12937), an Avian Antifertility Agent, on Rat Testis	Amiya P. Sinha Hikim and J. Chakraborty	277
The Incidence of Spermatic Granulomas and Their Relation to Testis Weight after Vasectomy and Vasovasostomy in Lewis Rats	Charles J. Flickinger, E. Scott Yarbrow, Stuart S. Howards, John C. Herr, Daniel Caloras, Thomas N. Gallien, and Donald R. Spell	285
Altered Testosterone Feedback in Pubertal Male Rats Raised on Reduced Caloric Intake	Bela E. Piacsek, Thomas M. Bonifer, and Rose C. Tan	292
Testicular and Serum Testosterone Variations in Squirrel Monkeys During Seasonal Cyclicity	Titania Pasqualini, Oreste Colillas, and Marco A. Rivarola	298
Vitamin A Modifies the Glycopeptide Composition of Cultured Sertoli Cells	M. Galdieri and L. Nisticò	303
Different Testosterone and LH Relationships in Infertile Men	Anthony F. Morrow, H.W. Gordon Baker, and Henry G. Burger	310
Age-related Variation in Seminiferous Tubules in Men: A Stereologic Evaluation	Larry Johnson, Charles S. Petty, and William B. Neaves	316
Kinetics of Human Spermatozoa Long-chain Fatty Acid: CoASH Ligase	Robert E. Jones and Stephen R. Plymate	323
Seminal Carnitine Content in Obstructive Azoospermia: Correlation With the Anatomic Level of Obstruction	Gian R. Tomamichel and Klaus Bandhauer	328
Announcements		276, 284, 297, 315, 322, inside back cover
