Andrology

VOLUME 8 NUMBER 6

NOVEMBER/DECEMBER 1987

CONTENTS

Pituitary-Testicular Function of Prostatic Cancer Patients During Treatment with a Gonadotropin-Releasing Hormone Agonist Analog: I. Circulating Hormone Levels	I. Huhtaniemi, H. Nikula, and S. Rannikko	355
Pituitary-Testicular Function of Prostatic Cancer Patients During Treatment with a Gonadotropin-Releasing Hormone Agonist Analog: II. Endocrinology and Histology of the Testis	I. Huhtaniemi, H. Nikula, M. Parvinen, and S. Rannikko	363
The Effect of Long-Term Opiate Antagonist Administration to Pubertal Boys	Howard E. Kulin, Laurence M. Demers, Alan D. Rogol, and Johannes D. Veldhuis	374
The Prolactin Response of Males to a Standard MVO ₂ Treadmill Test	Marguerite E. Zaworonok, Robert W. Hudson, and William A. Orban	378
Inhibition of Ornithine Decarboxylase Activity by Follicle Stimulating Hormone in Primary Culture of Rat Sertoli Cells	Rentala Madhubala, Sankararaman Shubhada, Anna Steinberger, and Yu-Hui Tsai	383
Characteristics of Prolactin-Modulated LH Induction of LH/hCG Receptors: Transient Inhibition of Receptor Induction Following Prolactin Exposure	Mohamed O. Hussein and William B. Zipf	388
Sex Steroid Inhibition of LH Induction of the LH Receptor	William B. Zipf and Mohamed O. Hussein	393
Uptake and Release of Ascorbic Acid by Rat Leydig Cells <i>In Vitro</i>	William H. Moger	398
The Effects of Unilateral, Experimental Varicocele Are Not Mediated Through the Ipsilateral Testis	G. S. Hurt, S. S. Howards, and T. T. Turner	403
Index to Volume 8		409
Announcements		362, 373, 382, 392
